

## SINGLE BAY GARAGE WITH TILED ROOF

Single bay garage finished with a black stain, tiled roof and galvanised guttering.

— Ref: GSS14

The Stable Company were asked to replace the existing concrete garage with a timber framed garage to the rear of a semi-detached town property.

## *Client* BRIEF

How did we turn the existing run-down garage building into the garage our client had dreamt about for over a decade?

The Stable Company were asked to submit a planning application for the redevelopment of this single-storey garage to the rear of the property, as well as design the stunning building with a mix of contemporary and traditional styles.

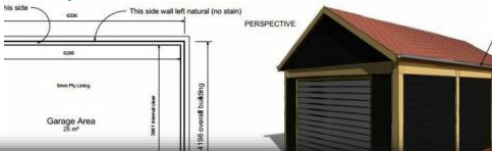

*Planning application*  
10 WEEKS

Our  
SOLUTION

Working with the client we were able to design and develop plans that delivered on their brief. We undertook a survey of the site to find the best location and fit, then adapted the design to suit it. We provided the client with plans and ideas they could visualize, and used our expertise to bring that vision to life.

The  
RESULT

This garage is a stunning example of what can be achieved when working together with the client to achieve a goal.
