

SPEEDWELL NURSERY

A dedicated nursery school for up to 20 pupils.

A local council who run a day nursery (with 120 attendees) wanted to expand their provision for two-year-old attendees, and were looking to provide a purpose building to facilitate this.

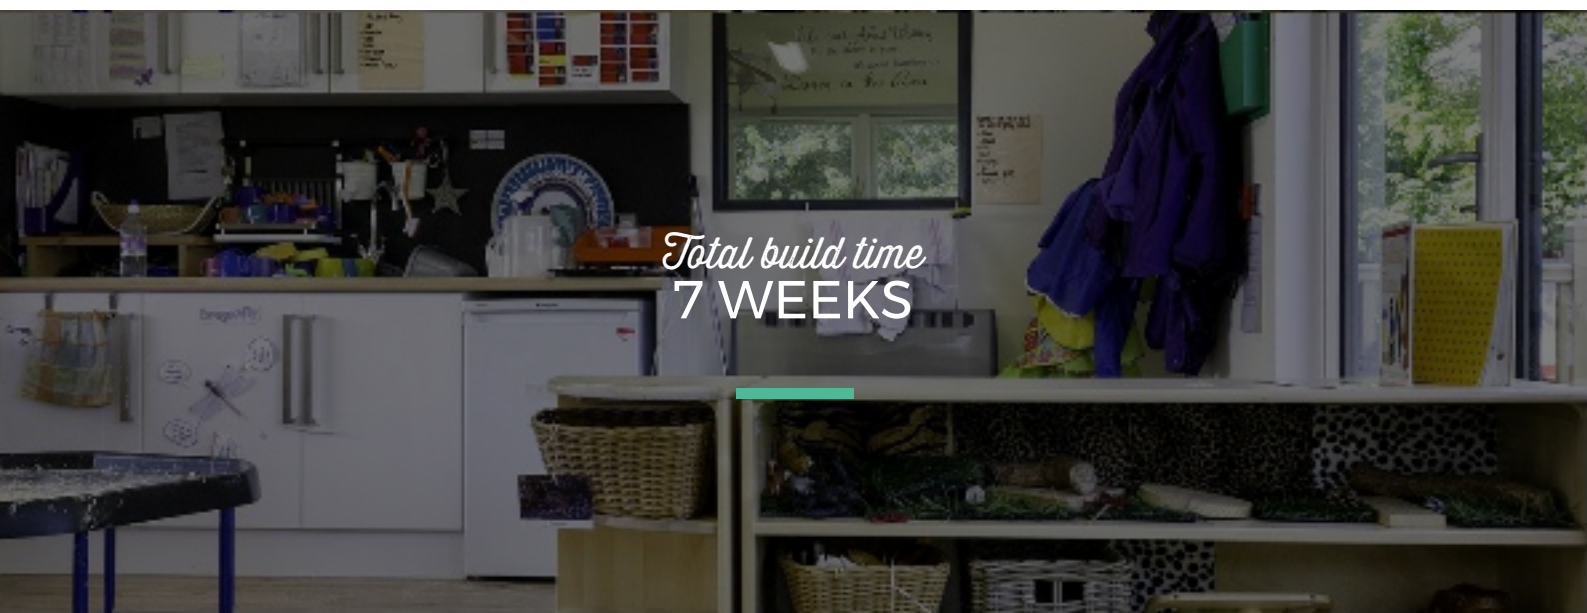

Ref: ED23

Our SOLUTION

We built a room to utilise twenty educational placements for teaching two-year-old children, fitted, too, with a washroom area and small office. This building creates a fabulous and valuable additional space for the children to use throughout the day.

This client was sold on our ability to provide the natural aesthetic of timber construction while also delivering all aspects of the build and fit out, thanks to our Complete Care package.

Total build time
7 WEEKS

The RESULT

"The final result is absolutely wonderful. We are really looking forward to the summer and some better weather when the large doors can be thrown open and the children are able to go in and out as they want. This was the whole focus of the project – to have a classroom that brings our outdoor area closer."
